

Chateau Margene Spring 2022

.....

Preparations are underway for the 2022 season. We re-invest in building healthy soils every year with our sustainable farming practices. Jon incorporated 120 cubic yards of organic compost into all nine vineyard blocks in January. We are experiencing a low rainfall season, but are prepared and have experience with this from prior vintages. We navigate these challenges by irrigating early, mimicking rainfall. Our viticulture activities are all catered to ensuring the highest quality of wine grapes while maintaining healthy vines.
