

Chateau Margene - Spring 2025

THE ART OF WINEMAKING

When discriminating wine tasters visit Paso Robles, they often ask where they can experience boutique, luxury wines. Chateau Margene is often referred to as the gold standard for those wanting to sample Cabernet Sauvignon, Cabernet Franc and Bordeaux varietals. Known for producing ultra-premium, small-batch wines, the Cabernet Sauvignons are something truly special. It's not just about drinking wine—it's about experiencing every layer of flavor. The meticulous care that goes into each bottle, from from the vineyard to the cellar, ensures a polished, complex wine every time. For collectors and enthusiasts, it's an investment in something extraordinary. Their limited-release wines, like The CASK Series or Beau Melange, showcase the pinnacle of Paso Robles winemaking.

THE MINDSET

We're not interested in recreating a specific flavor in our wines year after year, but capturing each unique season through the lens of our estate vineyard. Our goal is to paint with all of the colors of the palate, with Chateau Margene expressed in every vintage. Our wine cellar is testament to this belief. However, ageability isn't solely a trial of endurance but rather an opportunity to flourish. Each bottle should taste delicious today and continue to evolve, rewarding patience in the future. Place, often defined as terroir, represents the geography, the climate and the essential human element which is captured in the wine's balance between power and finesse, structure and texture. Since founding the winery in 1997, we've set out to create quality wines that pair best with good food and good company. Our wines reflect the personalities of our estate vineyards as well as the spirit of the winemaker. We're proud to share these wines—from our family to yours.
