

Mooney Family SLH Harvest 2013 Notes

“Our Pinot Noirs are acquired from two vineyards in the Santa Lucia Highlands: Boekennoogen Vineyard and Vigna Monte Nero. We saw a warm winter and spring with less than average rainfall. The weather was great during bloom and set and fruit development was earlier than normal. The grapes moved through the summer months smoothly with average berry size and tonnage. Our pick dates, during the second and third weeks of September, were over two weeks earlier than the previous three seasons. The flavors we’re tasting, along with the nicely balanced acidity, point to 2013 being an exceptional vintage.”
